

K-Love supplies me and my family with music that all of my family can listen to. I do not have to be concerned about inappropriate words in the lyrics. My community has benefitted greatly from K-Love. I know of many families who don't even attend church regularly, who listen on a regular basis. K-Love is a service that I feel is in the public interest, because they don't promote anything in their broadcast that has to do with discrimination or hate.
